EDUCATION

Bachelor in computer engineering (B.E. lateral),

Birla Vishvakarma Mahavidyalaya (BVM) 🛭

Diploma in Computer Engineering, Parul University ☑

May 2015 – Apr 2018 Anand, India

Jun 2012 - Apr 2015 Vadodara, India

SKILLS

Languages (Javascript, Python)

Frameworks (ReactJS, NextJS, VueJS, ExpressJS, Bootstrap CSS, Foundation CSS, Tailwind CSS)

Databases (MySQL, MongoDB) | Firebase | NodeJS | AWS (S3 & Cloudfront) | Git

PROFESSIONAL EXPERIENCE

Frontend Engineer, Heals Healthcare

- Built all in one claim settlement portal with VueJS.
- Migrated patient app from Angular to React.
- Automated patient chits collection for EDI generation, resulting higher settlement ratio.
- Conducting code reviews to ensure quality of code & collaboration with stakeholders for requirement & to architect solution.
- Technologies: VueJS, ReactJS/NextJS, Tailwind CSS

Senior Solution Engineer, Deqode

- Created cross-browser compatible and standards-compliant using ReactJS/NextJS.
- Developed modules in large cross-platform applications using Web Services (REST).
- Designed, built, and deployed applications utilizing the AWS stack
- Technologies: ReactJS/NextJS HighChartsJS

Associate Developer, Rishabh Software

- Worked on internal chat application RSPL chat, created APIs in Node.JS + Typescript and UI with Angular v7.
- Built internal tools for seating management using SVG & Vanilla Javascript.
- Worked on TLH (The Launday House) product, built components in ReactJS and implemented tag printing using thermal printer using ZPL commands.
- Created firebase function to keep track of unread messages count for TenFold Android app.
- Created APIs in Node.JS for BOA Hub Client, used Google distance matrix API to calculate distance & book nearest available BOA Pod.
- Technologies: Material UI, Angular 4+, ReactJS, Websocket, Firebase, AWS & SonarQube

Jan 2022 – present

Bangalore,

India (Remote)

Jul 2021 - Jan 2022

Pune, India (Remote)

Dec 2018 - Jul 2021

Vadodara, India

PROJECTS

[My GitHub should give a better idea about the things I've worked on recently.]

TLH, The Laundry House - Site for processing laundry orders & management

Pact, (Insurance) - Web app for automated claim questionnaire form generation with AV support

NC3, (Insurance) - Claim settlement with payor, provider & settlement features

[PERSONAL PROJECTS]

Todo Application, https://vanillav2beta.netlify.com/ ☑

React Projects, https://reactjs101.vercel.app/ ☑

CSS Projects, https://css101.vercel.app/ ☑

DVVR, Data Visualisation in virtual Reality with DeckGL ♂

Smart India Hackathon, at Government of India Qualified to the final round of SIH 2018	Mar 2018
HackInfinity, at DAIICT Participated in a hackathon organized by DAIICT	Dec 2017
Best Final Year Project, at BVM Engineering College	Nov 2017

Data visualization in virtual reality, selected as the best project among 30 projects.
